

Dear Patient:

Thank you for talking to me on _____ about your health and medications. Goodsense Specialty Pharmacy's MTM (Medication Therapy Management) program helps you make sure that your medications are working.

Along with this letter are an action plan (Medication-Related Action Plan) and medication lists (Personal Medication List). **The action plan has steps you should take to help you get the best results from your medications. The medication list will help you keep track of your medications and provide guidance as to how to use them properly.**

- Have your action plan and medication list with you when you talk with your doctors and other healthcare providers.
- Ask your doctors and other healthcare providers to update the forms at the visits if necessary.
- Take your medication list with you, if you go to the hospital or emergency room.
- Give a copy of the action plan and medication list to your family or caregivers.

If you would like to talk about this letter or any papers that come with it, please call our team at 833-228-5383 at any time. We look forward to working with you and your doctors to help you stay healthy through the Goodsense Specialty Pharmacy MTM Program.

Sincerely,

Goodsense Specialty Pharmacy

MTM Team
